TECHNICAL DATA SHEET

Karro Titan Apron

**Product Information****For the most demanding applications.**

The abrasion area of this apron is a combined 21 mil (525 microns) or 23mil (575 microns), to enhance durability and protection. It is offered in two base apron thicknesses, and in die cut, buckle, and shoulder strap configurations.

Belly Patch size = 38 w x 61 h cm

100% pure Polyurethane (PU) Ether.

Industry leading durability.

PU material will never crack.

Tear and puncture resistant.

Reusable

Reusable: Day after day, week after week, month after month. **Top Dog products last longer.**

Care Instructions

Launderable: Dip wash and hang dry (**Pure PU absorbs zero moisture**).

Machine washable and laundry safe to 82°C (180°F): Refer to laundering / cleaning instructions.

**Water/fluid proof
Recyclable
Compliance**

Liquid proof barrier.

100% recyclable.

Food safe.

CFIA, FDA/USDA and EU compliant.

Colours

Industry leading six (6) colour choices: Aligns with colour coding and HACCP initiatives.

**Anti-microbial
Thickness**

Enhanced anti-microbial properties: Mold will not grow on this material.

Thickness of 6 mil (150 microns) base apron with 15mil (375 microns) heat sealed frontal patch. Combined thickness of patch area 21mil (525 microns).

Thickness of 8 mil (200 microns) base apron with 15mil (375 microns) heat sealed frontal patch. Combined thickness of patch area 23mil (575 microns).

Lengths of 45" and 50", (114cm and 127cm) available.

Custom sizing of apron and patch area available.

Lengths**Chemical
Resistance**

100% resistant to animal fats, degreasers, cleaning chemicals and water (plus many more fluids and chemicals): Contact Top Dog for details regarding chemical compatibility.

Wearability

Soft / supple to -65°C.

Lightweight, supple and comfortable to wear.

Pure PU is slick: Virtually zero abrasion or adhesion; almost nothing sticks to (or stains) PU (grease, food/processing waste, glue, etc.).

The best choice in protective apparel
