Product Information

Best in class material

Reusable

Food safe/ Anti-microbial

Durable protective apparel

Care Instructions

User Comfort Sustainability

Compliance

Colours

Thickness

Chemical Resistance

Full frontal protection with open back for breathability.

A popular choice when more protection than an apron / sleeve combo is required. The overhead design and elastic cuff make the gown extremely easy to don and doff. Lightweight, protective, and comfortable.

100% pure Polyurethane (PU).

We use Pure Polyurethane (PU) film because it is the best material available for reusable protective apparel.

Reusable: Day after day, week after week, month after month. **Top Dog products last longer.**

- **Enhanced anti-microbial properties:** Mold will not grow on this material.
- **Topdog** Pure PU is slick: almost nothing sticks to (or stains) Topdog PU (grease, food/processing waste, cleaning chemicals, etc.). Virtually zero abrasion or adhesion.
- **PU material will never crack.**

Industry leading durability. Puncture and tear resistant. 100% water/liquid proof

EASY TO CLEAN/RE-USE:

Popular cleaning choices

- Dip wash and hang dry (**Pure PU absorbs zero moisture**).
- Machine wash/dry. Laundry safe: Refer to laundering / cleaning instructions.
- Many other methods available

Lightweight, supple, and comfortable to wear.

Topdog PU is 100% Recyclable

CFIA, FDA/USDA, UKCE and EU compliant.

Industry leading up to seven (7) colour choices: Aligns with HACCP/colour coding initiatives. See page 2 on the Technical Data sheet for more details.

Thickness of 6 and 8 mil(150 and 200 microns) available.

15 mil (300 Microns) belly patch available.

100% resistant to animal fats, degreasers, cleaning chemicals and water (plus many more fluids and chemicals): Contact Top Dog for details regarding chemical compatibility.

The best choice in protective apparel – See page 2 for product numbers.
