

10 things you need to know about Top Dog's pure polyurethane (PU)

- 1 Best in Class – Designed to Outperform and Outlast the Competition**
Over 20 + years in business, Top Dog has developed and refined a proprietary polyurethane (PU) material formula and manufacturing processes that combine to offer best in class "durable protective apparel".
- 2 Reusable & Cost Effective**
 - Reusable and durable, our products are very easy to clean.
 - Washer and dryer safe.
 - Many other simple cleaning choices available.
- 3 Food Safe, Enhanced Anti-microbial Formula – The #1 Choice for Food Safety in Reusable Apparel**
 - 100% food safe – FDA, CFIA, EU, UKCE compliant.
 - Our products are made from 100% pure polyurethane that is naturally resistant to the growth of micro-organisms and will never crack.
 - Top Dog pure PU is slick – virtually zero abrasion. Nothing sticks to or stains PU (grease, food / processing waste, glues, etc.).
- 4 Industry Leading Durability – Top Dog Products Last Longer**
 - Top Dog's PU is tear and puncture resistant.
 - Day after day, week after week, month after month – MANY wear cycles.
 - Top Dog aprons typically last 3–4 months with daily use.
 - Top Dog products are easily repaired, extending use even more.
- 5 Extremely Lightweight and Comfortable**
 - Easy to wear apparel equals increased productivity.
 - Stays supple at any temperature.
- 6 Sustainable – 100% Recyclable**
 - All Top Dog polyurethane products are fully recyclable at end of use – in contrast, all single use (polypropylene), and some reusable PPE (vinyl), end up in landfills.
 - Top Dog products perfectly align with corporate sustainability initiatives.
 - Cost savings will much more than offset costs to clean reusables.
- 7 More Colour and Thickness Choices**
 - Top Dog offers the most colour choices (9) in the industry.
 - Aligns with Colour Coding and HACCP initiatives.
 - 6, 8 and 12 mil thickness choices (plus a 15-mil patch option)
- 8 More Product Choices**

Choose from aprons, gowns, sleeves, suits, smocks, covers, custom products and more.
- 9 100% Resistant to Fats, Degreasers, Cleaning Chemicals and Water**

Excellent protection against these elements, along with many other fluids and chemicals, that exist in food processing facilities. Top Dog pure polyurethane apparel simply lasts longer.
- 10 Industry Leading Customer Service**

Count on our excellent customer service, order fulfilment and product customization. We want to work with you to manage all your protective apparel requirements.
