Chemical Resistance

When more protection is needed.

If waterproof and antimicrobial features are required, our lab coat is the solution. Easily wiped clean and sanitized. Our slick, pocketless coat reduces possible contamination.

100% pure Polyurethane (PU).

We use Pure Polyurethane (PU) film because it is the best material available for reusable protective apparel.

Reusable: Day after day, week after week, month after month. **Top Dog products last longer.**

- **Enhanced anti-microbial properties:** Mold will not grow on this material.
- **Topdog** Pure PU is slick: almost nothing sticks to (or stains) Topdog PU (grease, food/processing waste, cleaning chemicals, etc.). Virtually zero abrasion or adhesion.
- **PU material will never crack.**

Industry leading durability. Puncture and tear resistant. 100% water/liquid proof

EASY TO CLEAN/RE-USE:

Popular cleaning choices

- Dip wash and hang dry (**Pure PU absorbs zero moisture**).
- Use a specialized washer
- Machine wash/dry. Laundry safe to 82°C (180°F): Refer to laundering / cleaning instructions.
- Many other simple methods available

Lightweight, supple, and comfortable to wear.

Topdog PU is 100% Recyclable

CFIA, FDA/USDA, UKCA and CE compliant.

Industry leading nine (9) colour choices: Aligns with HACCP/colour coding initiatives.

6 mil (150 microns)

Medium to XL

100% resistant to animal fats, degreasers, cleaning chemicals and water (plus many more fluids and chemicals): Contact Top Dog for details regarding chemical compatibility.

The best choice in protective
