Jackets, Overalls and Pants.

Our cost-effective wash-down products are the perfect solution for any type of sanitation work. This demanding environment requires a durable, long-lasting, **anti-microbial** product that is both waterproof and mold resistant. Jackets are complete with sealed snap closures and storm flap. Options include elastic cuffs, detachable oversized hoods, rear vents, and reflective stripes. Pants are available in bib overall or elastic waist styles. 100% pure Polyurethane (PU).

We use Pure Polyurethane (PU) film because it is the best material available for reusable protective apparel.

Reusable: Day after day, week after week, month after month. **Top Dog products last longer.**

- **Enhanced anti-microbial properties:** Mold will not grow on this material.
- **TopDog** Pure PU is slick: almost nothing sticks to (or stains) Topdog PU (grease, food/processing waste, cleaning chemicals, etc.). Virtually zero abrasion or adhesion.
- **PU material will never crack.**

Industry leading durability. Puncture and tear resistant. 100% water/liquid proof

EASY TO CLEAN/RE-USE:

Popular cleaning choices

- Dip wash and hang dry (**Pure PU absorbs zero moisture**).
- Use a specialized washer
- Machine wash/dry. Laundry safe to 82°C (180°F): Refer to laundering / cleaning instructions.
- Many other simple methods available

Lightweight, supple, and comfortable to wear.

Topdog PU is 100% Recyclable

CFIA, FDA/USDA, UKCA and CE compliant

Industry leading up to nine (9) colour choices: Aligns with HACCP/colour coding initiatives.

Thickness of 8 mil (200 microns).

100% resistant to animal fats, degreasers, cleaning chemicals and water (plus many more fluids and chemicals): Contact Top Dog for details regarding chemical compatibility.

The best choice in protective apparel.
